Operating Systems: Windows 10/11, Windows Server, Red Hat Enterprise Linux

Administration: Active Directory, DNS, DHCP, Group Policy, OS imaging & deployment (WDS), VirtualBox

Networking: TCP/IP, VLAN configuration, inter-VLAN routing, Cisco Packet Tracer, network security policies

Support & Tools: Hardware troubleshooting & repair, remote desktop support, Microsoft 365 (Word, Excel, Outlook, Teams), PowerShell, Bash/Shell scripting, MySQL

CERTIFICATIONS

[AWS Academy Graduate — Cloud Foundations](#) (2025): AWS core services, security, architecture, pricing
[Ontario Security Guard License](#) & [Emergency First Aid & CPR/AED Level C](#)

EXPERIENCE

Amazon

Warehouse Associate

Ottawa, ON

Apr 2026 – Present

- Process inbound and outbound inventory using handheld scanner technology while consistently meeting hourly rate and accuracy targets.
- Maintain strict adherence to safety and quality procedures in a fast-paced, metrics-driven fulfillment environment.

Pizza Hut

Customer Representative Specialist

Ottawa, ON

Oct 2025 – Present

- Prepare 100+ food orders daily following standardized procedures, sustaining high accuracy and consistent quality under time pressure.
- Maintain full kitchen operations independently during understaffed shifts, prioritizing tasks and coordinating with team members during peak hours.

Firoz Nandhla Immigration Services

Data Entry & Immigration Assistant

Toronto, ON

Jan 2025 – Aug 2025

- Managed data entry and digital records for 150+ client cases, ensuring accuracy, completeness, and compliance with regulatory standards.
- Streamlined application submission procedures using government (IRCC) online portals, reducing processing turnaround.
- Handled confidential client information under strict privacy guidelines and resolved client inquiries through professional communication.

St. Lawrence College (Alpha College Campus)

Student Ambassador

Toronto, ON

Oct 2024 – Aug 2025

- Guided 100+ students and staff in navigating college systems and resources; supported campus events.
- Supervised 70 volunteers at a convocation ceremony with 2,000+ attendees, coordinating logistics in a high-pressure environment.

TECHNICAL PROJECTS

Windows Server Deployment (VirtualBox) | Active Directory, DNS, DHCP, WDS

- Built a simulated multi-department Windows Server environment: domain controller setup, user/OU management, Group Policy, and automated OS deployment via WDS, with full troubleshooting documentation.

Network Configuration (Cisco Packet Tracer) | VLANs, Routing, Security Policies

- Designed and implemented inter-VLAN communication and routing simulations with network segmentation and security policy configuration.

Linux Server Simulation (Red Hat Enterprise Linux) | Apache, MySQL, Hardening

- Deployed and configured Apache web server and MySQL database, applying security hardening and automated maintenance scripts.

EDUCATION

St. Lawrence College, Alpha College Campus

Diploma in Computer Systems Technician

Toronto, ON

May 2024 – Aug 2025

- Coursework: Network Infrastructure, Linux Administration, Systems Deployment, Database Management Systems, Technical Troubleshooting, IT Infrastructure Management.
